

Colds Coughs Catarrh

A trinity of evils, closely allied, that afflict most people, and which follow one on the other, in the order named, until the last one is spread through the system, leading to many evils. But their course can be checked.

PERUNA CONQUERS

It is of great value when used promptly for a cold, usually checking it and overcoming it in a few days. Ample evidence has proved that it is even of more value in overcoming chronic catarrh, dispelling the inflammatory conditions, enabling the diseased membranes to perform their natural functions, and toning up the entire system. The experience of thousands is a safe guide to what it may be expected to do for you. Liquid or tablets—both tested by the public and approved.

PUBLIC AUCTION OF Small Farms In "Wildwood"

"Wildwood," formerly the New Fair Grounds, located on the Lexington pike, (South Main Street) has been platted into 10 small farms, and will be offered at public auction, on the premises, on

WEDNESDAY, APRIL 4, 1917,

beginning at 2:30 o'clock. "Wildwood" residents will have the advantage of five cent car fare to the city, being located on the interurban line, with convenient service every few minutes. City water piped to and on the grounds; electric lights and gas accessible, and a fine sulphur well is located about midway of the property.

IDEAL LOCATIONS FOR HOMES.

Every small farm in "Wildwood" is beautified with elegant maple and locust shade trees and large forest trees making them ideal locations for residence, with all the conveniences of the city and the advantages of country life, with sufficient land in each farm for an elegant lawn, also a place to raise a garden, or farm in a small way, and room to raise chickens, keep a cow, etc., and thus materially reducing the cost of living, and with city benefits at the same time escaping city taxes.

The public is cordially invited to visit "Wildwood," stroll over the grounds and inspect them before the day of sale, and observe the beautiful and almost perfect elevation, which is so necessary if you would have your home appear at its best advantage. Plats of "Wildwood" small farms can now be seen at the Peoples Deposit Bank & Trust Company.

RESTRICTIONS SAFEGUARD PURCHASERS

RESTRICTIONS—Small farms in "Wildwood" will be sold with reasonable restrictions, thereby insuring purchasers of these home tracts of suitable structures, building lines, etc. The restrictions as to the minimum cost of houses to be built on each small farm will be announced on the day of sale. As to the building line, no farm owner will be permitted to build his dwelling nearer to the front line of their property than one hundred and twenty-five feet. A clause will also be inserted in each deed prohibiting the transfer of any of the small farm tracts to colored people.

It is the desire of the promoters of this beautiful country place, "Wildwood," to make it most attractive and desirable to people who contemplate making this desirable suburb their home in the future.

TERMS OF SALE—Small farms in "Wildwood" will be offered under the following conditions: One-third cash, the balance in equal payments, due in one and two years and bearing interest at the rate of six (6) per cent, per annum, and a lien will be taken on the property conveyed to secure the payment of said deferred notes with accrued interest.

BEAUTIFUL AND COSTLY FREE PRIZES.

We will give away, absolutely free, on day of sale, a number of beautiful and attractive prizes. Every person attending the sale will have an equal chance to secure these substantial free gifts. Attend the sale and you may be lucky in securing a portion of "The Shower of Gold," or one of the valuable prizes.

MAYSVILLE BARACAS WIN.

The Baraca Class of the Maysville Baptist church slipped several points over on the Paris class in the contest now going on by rounding up an attendance of 78 at their class session last Sunday. The Paris class had only 48 present. The Maysville class now has a good long distance lead over the Paris class, and are making preparations to maintain that lead, unless the Paris class should spring a surprise at the final moment. Both classes are working hard, but it seems Maysville has succeeded in arousing the most enthusiasm.

DEFACERS OF PREMISES NEED A SPANKING

There is nothing that adds more to the appearance of a town than well-kept premises, neat yards, clean gardens, beautiful lawns, and last, but not least, a tidy looking fence, unless the custom of removing fences altogether should become universal, and we honor all those who take a personal pride in such things.

But it is a lamentable fact that there are those who do not take pride in fixing up anything about them and are envious of others who do. They will go even out of their ways to annoy by little acts of pettiness that tend to mar the appearance of premises. In the course of news-hunting expeditions about Paris we have frequently noticed nice fences which thoughtless boys, or perhaps some children of larger growth have whittled and defaced until it has bore a strong resemblance to an Alaskan totem pole. And that isn't all. These kids have in many places chalked the fronts of business houses, defaced window sills, and in other ways shown their natural bent. One business man remarked, after finding a visit had been paid by these vandals to his place: "I would just like to have four arms and hands instead of two and catch some of those little savages at their work!"

Nothing is more annoying to a man after he has placed a neat fence around his home and had it neatly painted to go out some morning and find that some thoughtless kid or some man, perhaps, had been making a car-penter shop of it. Sometimes the vandalism is the work of a petty spiteful nature. Such things ought not to be. A judicious spanking, administered in the good old-fashioned way, where it would do the most good, might help some to break up the practice, even if it did lead to a declaration of war with the "dear child's" parents.

RANK FOOLISHNESS.

You occasionally see it stated that colds do not result from cold weather. This is rank foolishness. Were it true colds would be as prevalent in midsummer as in midwinter. The microbe that causes colds flourishes in damp, cold weather. To get rid of a cold take Chamberlain's Cough Remedy. It is effective and is highly recommended by people who have used it for many years as occasion required, and know its real value. Obtainable everywhere.

The medical staff of the new hospital is composed of Dr. J. W. Ishmael, president; Dr. George F. Doyle, secretary; Drs. C. G. Stevenson, B. F. Johnson, I. H. Browne and D. H. McKinley.

Killed or died of wounds or sickness 13,816
Prisoners 1,396

"SOMETHING HAS HAPPENED TO THE KAISER."

MONTREAL, March 22.—Mysterious hints are being discussed in certain circles here in regard to the possibility that the German Emperor may be in a serious physical condition. No open statement could be obtained from any person of authority regarding the specific nature of the injury or disease which led to the report, but rumors were current that "something has happened to the Kaiser," the nature of which is being kept a secret by the faithful servants and physicians with whom he has surrounded himself since the beginning of the war.

No news of the Kaiser's whereabouts or of his physical condition has been given out from any part of the German empire since on March 2, when a dispatch from Berlin through Amsterdam stated that he was suffering from so severe a chill that he had been forced to remain indoors altogether and transact all business with headquarters by means of messengers and telegraph.

You Can Make Excellent Cake with Fewer Eggs

Just use an additional quantity of Royal Baking Powder, about a teaspoon, in place of each egg omitted.

This applies equally well to nearly all baked foods. Try the following recipe according to the new way:

CREAM LAYER CAKE

Old Way

1 cup sugar
1/2 cup milk
2 cups flour
2 teaspoons Royal Baking Powder
3 eggs
1/2 cup shortening
1 teaspoon flavoring

New Way

1 cup sugar
1 cup milk
2 cups flour
4 teaspoons Royal Baking Powder
1 egg
2 tablespoons shortening
1 teaspoon flavoring

Makes 1 Large 2-Layer Cake

DIRECTIONS—Cream the sugar and shortening together, then mix in the egg. After sifting the flour and Royal Baking Powder together two or three times, add it all to the mixture. Gradually add the milk and beat with spoon until you have a smooth pour batter. Add the flavoring. Pour into greased layer cake tins and bake in a moderately hot oven for twenty minutes. This cake is best baked in two layers. Put together with cream filling and spread with white icing.

UNCLE SAM GETTING READY FOR BUSINESS.

WASHINGTON, March 22.—The New Orleans navy yard has been ordered to build at once four submarine chasers. The New York yard Monday was ordered to build sixty submarine chasers.

The department has called upon all navy yards fitted to undertake small boat construction to submit estimates as to the number of submarine chasers they can turn out quickly.

Bremerton, Mare Island, Portsmouth, Boston, Charleston and other yards probably will be assigned to construction of chasers to the full extent of their capacity. It is possible that the construction of 150 or 200 chasers may be provided for in this way, in addition to 200 or more to be ordered Wednesday from private builders.

The chasers are designed to do 35 knots an hour and will be equipped with triple propellers and a fuel capacity for long cruising radius.

One touch of nature makes the whole world akin . . . and relations always fight like the deuce.

WOMEN WILL BE ENLISTED IN ACTIVE NAVAL SERVICE

WASHINGTON, March 22.—Secretary Daniels has ordered naval commandants at shore stations and all recruiting offices to be prepared to enlist women in the actual naval service in case of an emergency.

The Judge Advocate General has ruled that women can be enlisted under the laws regulating recruiting. While it is not intended to place women aboard ships, they may be utilized for shore duty in connection with coast defense work.

Grades corresponding to the yeoman class will be given to those qualifying as stenographers, clerks, typists or similar positions. Training in camps, a number of which have been organized under auspices of the Navy League, also will be recognized by navy officials as a factor in choosing the women recruits. Another grade of work for which they may be designated is that of radio-telegraphy and other communication devices.

A fairly good place in the ranks of foremost Americans belongs to the chaps that get to the border first.
